
Download Microsoft Visual Basic Powerpacks Vs Version 10000 [UPD]

want to remove unused remote desktop CALs from the RDS server. If I directly remove the CALs using the command below, will Microsoft still charge me for this or ...? delete deleted remote desktop sessions /LIBRARY_CALS = "\${REMOTE_CALS}" /DELETE_CALS = "RdpDeleteSessions" /NO_WARNING = 1 Does this really work? I tried this in Windows Server 2012 and it deletes everything, but I need to disable or remove CALs that are still in the deleted sessions list With this command, you will delete any remaining sessions, so they will no longer be used in the future and you can use them for your own needs.
